

第5回 仙台Iゾンタクラブ 東北大学大学院
女子学生海外渡航支援事業 報告書

平成28年 11月 21日 記入

所属部局名 : Dep. of Pharmacology
学 年 : D2
氏 名 : Aniko Karpati

1. 渡航先
San Diego, USA
2. 参加国際学会等の名称
Society for Neuroscience, USA
3. 開催期間
November 12- November 16, 2016
4. 旅行期間
November 11- November 18, 2016
5. 発表演題
Histamine as a modulator of astrocyte signaling
(アストロサイトにおけるヒスタミンの役割について)
6. 参加した国際学会等の状況並びに感想
The Society for Neuroscience represents the biggest society for neuroscientists in the USA. This year I have been given the chance to attend the annual meeting for the first time and I have been positively surprised. About 30,000 neuroscientists followed the call for this year's meeting and shared their knowledge and experiences during five days of conference in San Diego, California.
The conference was very diverse; it did not only attract many international researchers, but it also offered various types of events to learn, to share experiences and to discuss research. Researchers presented their obtained data in poster presentations, symposia and lectures. Professional development workshops as well as networking events organized by the society helped me as a young scientist to meet other young scientist fellows and to learn from the experiences of senior

scientists in open round table discussions.

Moreover, I have been selected to present my data during a poster presentation and many interested researchers came to ask questions and often I had very friendly, but stimulating discussions about my project. By presenting my own data and learning from other presentations, I could widen my horizon in many aspects related to my research topic.

Overall, I am very grateful that I have been supported to attend the annual meeting for the Society of Neuroscience. It deepened my scientific understanding a lot and I am highly motivated to further progress with my current research project.

7. 本事業に対する要望等

I have no further requests for this project, as everything went well and my overall experience is very positive.
