2.2.3 Setting Up with Google Prompt

22. Complete "2.1 Preparation for Multi-Factor Authentication" and open the "2-Step Verification" screen.

23. Select "Google prompt".

← 2-Step Verification

Turn on 2-Step Verification

Prevent hackers from accessing your account with an additional layer of security.

Unless you're signing in with a passkey, you'll be asked to complete the most secure second step available on your account. You can update your second steps and sign-in options any time in your settings. [Go to Security Settings](#)

Second steps

Make sure you can access your Google Account by keeping this information up to date and adding more sign-in options

	Passkeys and security keys	 1 passkey		>
	Google prompt	 1 device		>
	Authenticator	 Add authenticator app		>
	Phone number	 Add a phone number		>

Turn on 2-Step Verification

2.2.3 Setting Up with Google Prompt

10 / 16

2.2.3 Setting Up with Google Prompt

24. Check the screen and confirm that your registered smartphone is displayed.

← Google prompts

You need to be signed in to your Google Account on a phone to get a prompt on it. [More about Google prompts](#) ?

To turn off Google prompts on a device, sign out of your Google Account on that device.

You're currently signed in on these devices that support prompts.

2.2.3 Setting Up with Google Prompt

Usage Procedures

1. Enter your email address and password on the Google login screen.
2. If the "Get a code to sign in" screen appears, select "Try another way".

3. If asked to confirm your login method, select "Tap Yes on your smartphone or tablet".

2.2.3 Setting Up with Google Prompt

4. The 2-Step Verification screen will appear.

Note: If you are using a shared computer or a computer that is not exclusively yours, please uncheck the box for "Don't ask again on this device."

2-Step Verification

To help keep your account safe, Google wants to make sure it's really you trying to sign in

Check your Galaxy S22

Google sent a notification to your Galaxy S22. Tap **Yes** on the notification to verify it's you.

Or open the Gmail app on your Apple iPad mini (7th Generation) or Apple iPad Mini 4 to verify it's you from there.

☒ Don't ask again on this device

2.2.3 Setting Up with Google Prompt

5. Carefully check the notification time, connecting device, and location, and if you recognize them, select "Yes, it's me".

Note: If you do not recognize the request, it may be an unauthorized access attempt. Select "No, don't allow" and change your password immediately.

6. Login is complete.

Next, please be sure to complete "2.2.5 Setting Up Backup Codes".
