3. Data migration (Mac Mail App →TUMail(Gmail))

In this section, we will explain how to import the email data of the former TUMail into the New TUMail.

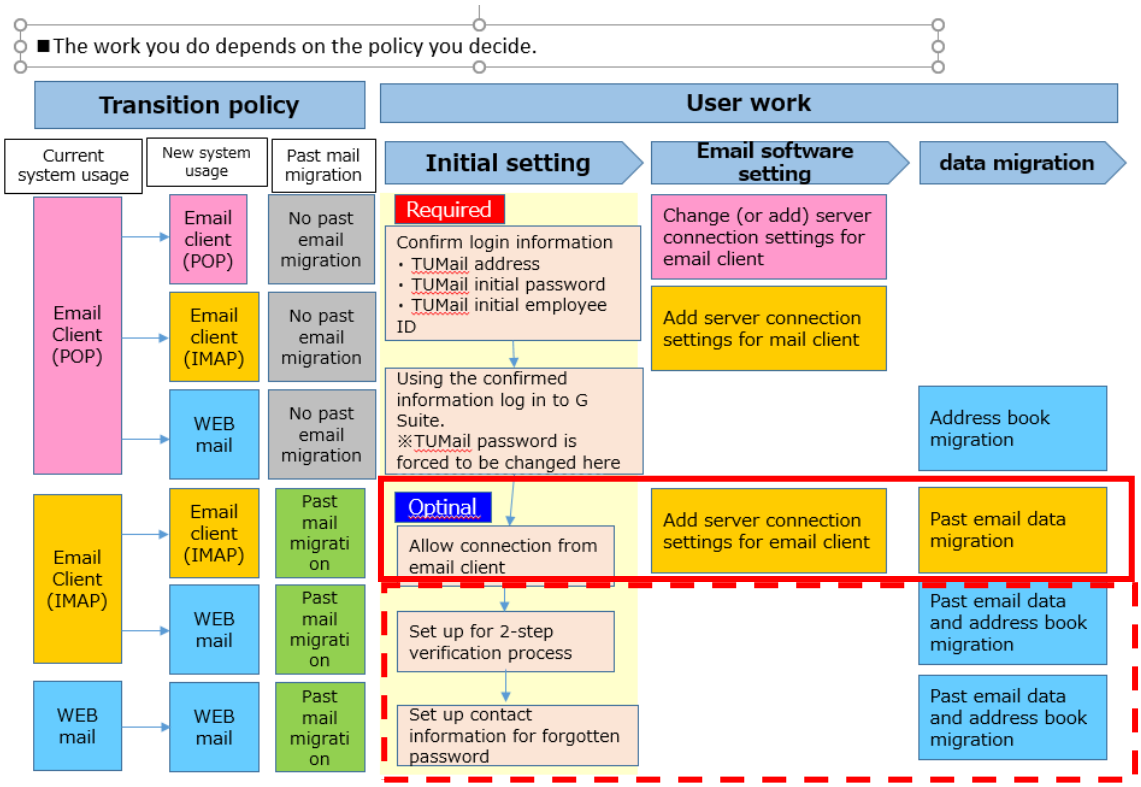

Current TUMail data is not migrated. If you need current TUMails, you need to migrate data on your own.

【Note】
The current TUMail server will be discontinued in mid-December, 2019. After that, if you do not migrate current email data, you will not be able to view current email data.

3. Data migration
3.1 Data migration using email software

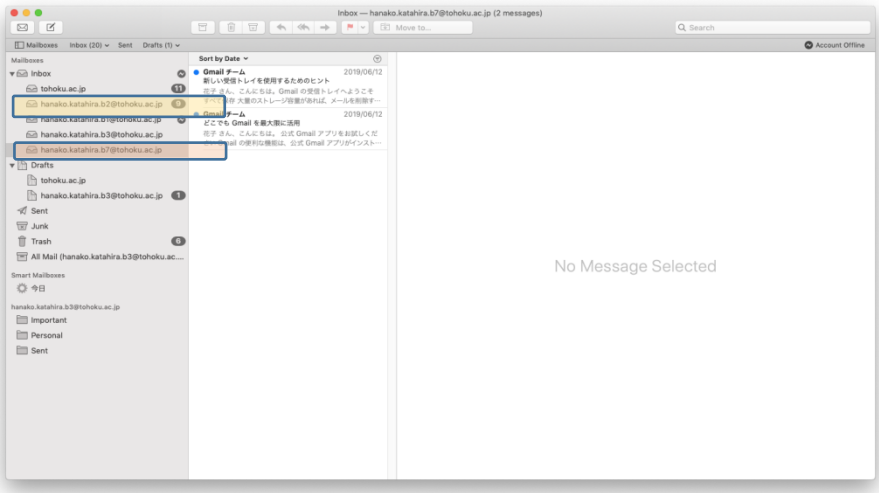

This item explains how to migrate current email data received by email client to New TUMail. The transition pattern in red frame is the target of this migration process.

・It is necessary to set the manual "2.2.1 IMAP reception setting" in advance.
・ If an error occurs during migration, the email data may be lost. This section explains how to delete the original data after checking the copied email data.

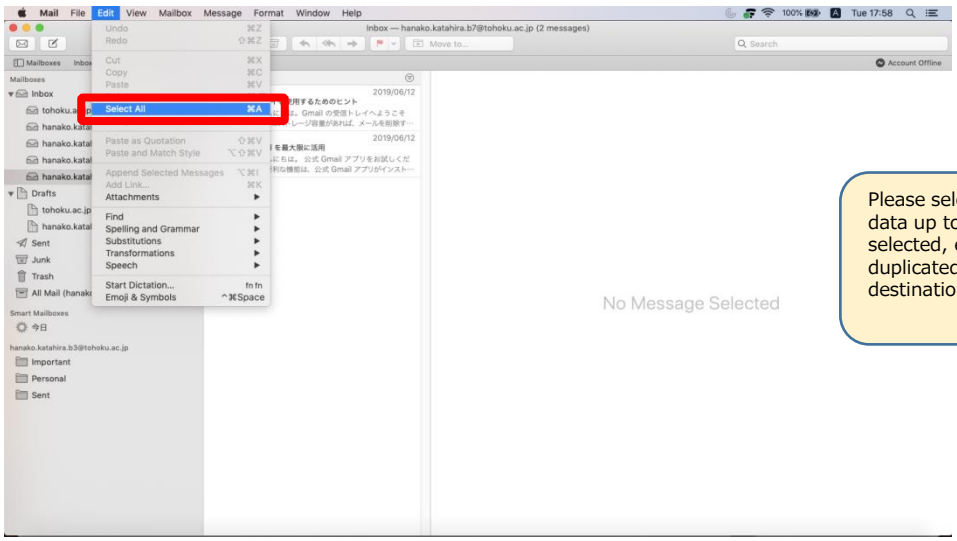

1.Start Mac Mail App.

New TUMail
Current TUMail

2. Select your inbox and select the data to be migrated. * All data can be selected by clicking "Edit" "Select" "All".
※ If there is a large amount of data, an error or time may be required. Therefore, divide the program into 500 messages several times.
※ If you want to migrate the data of other folders, please follow the same procedure in 2. ~ 5.

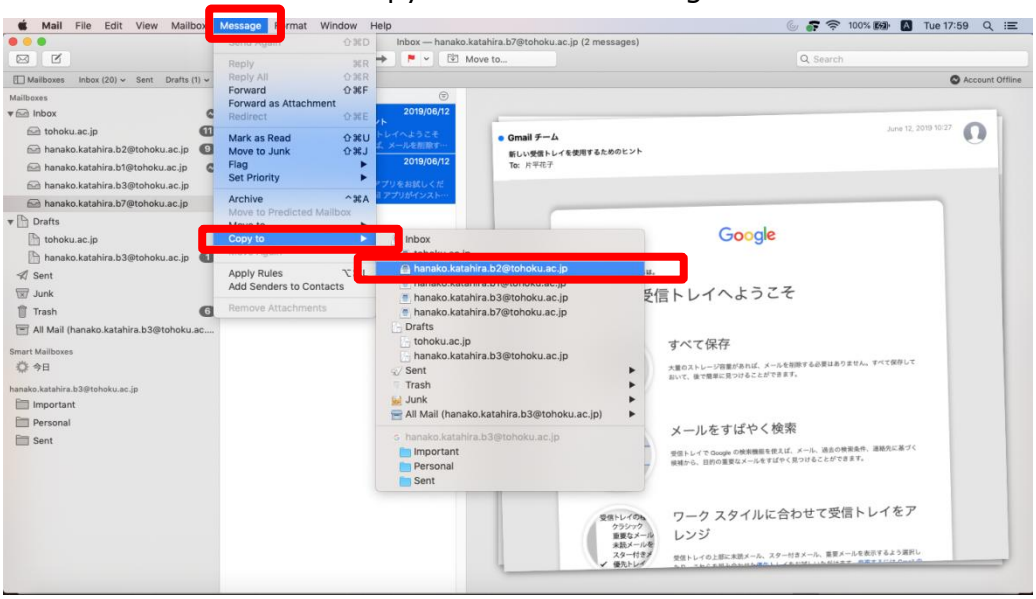

Please select migration data up to 6/16. If not selected, email data will be duplicated at the migration destination.

3. Confirm that the message has been selected.

4. Specify the destination folder in "Copy to" on the "Message" tab.

A copy of the email will be implemented. It takes about 50 times per minute.

5. Confirm that email data has been copied to the migration destination.

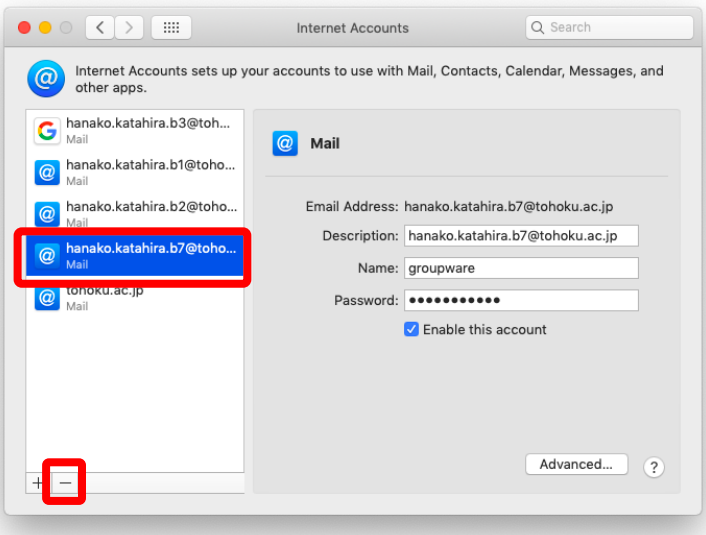

※Folder settings are managed as tags in New TUMail.

6. If you want to migrate the data of other folders, please follow the same procedure from 2 to 5.
If migration of all folders is completed, please delete the current IMAP settings according to the item number on the next page.

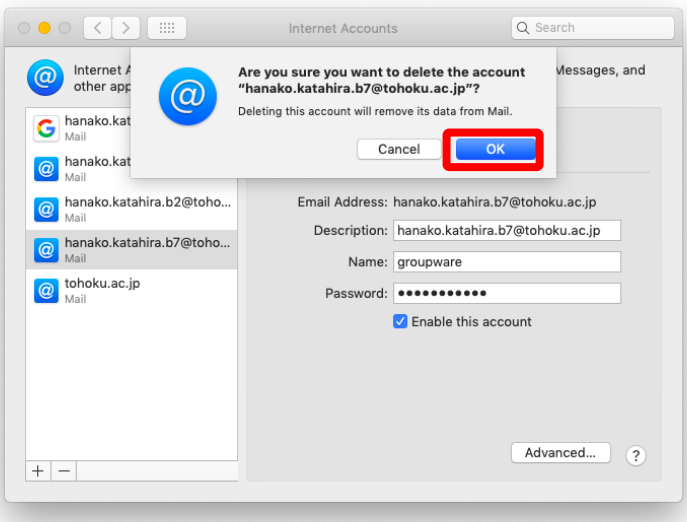

7. The current TUMail account information and the New TUMail account information are both registered, please delete the current TUMail account information. Click "Account Settings" under “Mail".

8. After selecting the account settings of the former TUMail (Gmail), click “-”.

9.Click “OK”.

10. Make sure that the current TUMail setting has disappeared and that the New TUMail setting has been set.
